The Chairman then presented a brief report on the performance of the Corporation during the preceding year as contained in the Management Report, copies of which were previously distributed to the stockholders.

Our stockholders' meeting last year was followed by twelve months of uncertainty in respect of the future of mining in the country. That is now history of which I am sure you are all well aware. The important thing is a new DENR Secretary has been appointed last month and his initial announcements have been very encouraging to investors. Secretary Roy Cimatu has called on miners to yield better results for the good and advancement of the sector. He has also announced his 'investor friendly'

initiatives and that he will not close the doors to the possibility of new mining projects in the country.

Against this backdrop, we hope to see in the near future new mining projects gaining steam, and we hope ours will be among them. The application for a Mineral Production Sharing Agreement of Olympic International Sales Corporation, with whom Zeus Holdings, Inc. has an Operating Agreement, remains pending with the Mines and Geosciences Bureau. We will continue, as Operator, to prosecute this application, referred to as APSA No. 000115-XI.
